### Bed Bug Chemical Treatment

Date: \_\_\_\_\_

Apartment: \_\_\_\_\_

Dear Resident:

Pronto Pest will be entering your apt. on the following date \_\_\_\_\_ to treat for bed bugs. To ensure the best treatment results for bed bugs the resident must cooperate in the preparation of their apartment for treatment.

#### The resident must:

- 1.** Vacate the apartment before any treatment begins and must remain out of the apartment for 1 1/2 hours (90 minutes) after treatment unless otherwise specified.
- 2.** Vacuum floors and along baseboards. Vacuum seams and general surface area of sofa and chairs including cushions. Empty vacuum bag/canister into a garbage bag & taken to the dumpster or outside trash.
- 3.** **Remove all bed linens.** Do not rotate mattress, couch, loveseat, or chair cushions for 30 days after chemical treatment.
- 4.** Place bed linens and all clothing in plastic bags, wash in hot water and dry at high temperature and then place in a new plastic bag.
- 5.** Remove all clutter from floors, around and under bed, and furniture as well as clutter on furniture especially closets and bedrooms. Keep all items under bed removed until the problem is resolved.
- 6.** Remove dust cover from the bottom of the box spring and the furniture. If unable to do so, PRONTO PEST MANAGEMENT, INC. must receive permission to remove the dust covers from residents.
- 7.** All original plastic wrapping, any type of non bed bug proof encasements, or any other covering **MUST BE REMOVED** from all mattresses and box springs to be treated for accurate application
- 8.** Pets need to be removed from the premises to be treated.
- 9.** **DO NOT SELF TREAT IN ANY MEANS.**

#### **After Care:**

When you return to your apartment you can make your beds and place your couch cushions back on if they were taken off. It is not recommended to rotate mattress, couch, loveseat, or chair cushions for 30 days after chemical treatment.
