General Pest Inspection

Date: _____

Apartment: _____ Floor/Floors: _____

Dear Resident,

Pronto Pest Management will be doing a GENERAL PEST INSPECTION in your apartment. They will be checking cabinets in the kitchen and bathroom for a variety of pests. The technicians will also be placing down insect monitors. It is very important that these monitors be left alone to be checked by the technician. Please remove items from on top of the fridge and stove so the technician can move them out to fully inspect behind those appliances. Please note that you do not have to leave your unit or be home for this inspection, but we do ask for everyone's safety that a mask is worn in the home and everyone maintain a 6 ft distance.
