General Pest Treatment (spiders, centipedes, beetles, etc.)

Date: _____

Apartment: _____

Dear Resident,

Pronto Pest Management will be doing a GENERAL PEST TREATMENT in your apartment.

- 1.** Be prepared to vacate the property (pets included (Birds, guinea pigs, hamsters, etc.)) as soon as treatment begins. You may return after the chemical is dry after 1 hour.
- 2.** Vacuum floors and along baseboards.
- 3.** All personal items including furniture must be moved 1 foot away from the baseboards to treat adequately.
- 4.** There is often residue left after treatment, we advise to please leave the residue alone.
- 5.** Any animals in tanks or aquariums, may be left in the unit; however, the filtration unit must be turned off, and the tanks/Aquariums must be fully covered.
- 6. DO NOT SELF TREAT BY ANY MEANS.**
