## Pantry Pest

Pronto Pest will be entering your home \_\_\_\_\_ for the following treatment of Pantry Pest(s). Depending on the severity of infestation the technician may have to ask you to step out of the apartment for 1 HOUR on the same day visit or next visit.

### What is Pantry Pest(s)?

- Pantry Pest(s) are pest that contaminate products such as Flour, Corn starch, Oatmeal, Corn, Rye, Barley, Wheat, Rice, Dry Pasta etc.

### How did I even get Pantry Pest(s)?

- Pantry pest(s) are brought into a home from a purchase of a product that has already been contaminated from the store when purchased or from where product was processed at.

### How do we take care of the issue?

1. All cabinets must be completely empty. (Upper cabinets as well as lower cabinets.)
2. All items must be removed from the tops of counters AND cabinets and drawers.
3. Pantry and/or closets where food is stored must be completely emptied.
4. Do not store items removed from the cabinet/pantry in the same room that is to be treated.
5. All food must be removed from the kitchen. (Except food stored in the refrigerator)
6. You **MUST** vacate your premises for 1 HOUR along with live pets.
7. **ALL INFESTED FOOD MUST BE THROWN AWAY.**
8. **ALL FOOD NOT INFESTED MUST BE SEALED IN AIRTIGHT CONTAINERS.** (Plastic bowls, glass jars, plastic bags, etc;)
9. For treatment to be successful we need your full cooperation.
