Roach Inspection

Date: _____

Apartment: _____ Floor/Floors: _____

Dear Resident:

Pronto Pest Management will be doing a Roach Inspection in your apartment. The system being utilized by Pronto Pest is placing monitors (PLEASE LEAVE MONITORS DOWN), this will determine which units have activity. It is vital that you leave monitors untouched and in place.

We do ask that residents step out while the inspection is being conducted. Once the technician exits the apartment the resident can return to their unit.

DO NOT USE ANY OTHER PESTICIDES IN YOUR APARTMENT PRIOR TO OR AFTER OUR TREATMENTS! Other chemicals, sprays, dusts, etc. can affect the feeding habits of the insect and prolong the treatment process.

Thank you for your cooperation.
